

COLOR PIGMENTS

Rich, Vibrant Colors to Make Your Project Unique!

What will **YOU**
CREATE with Color Pigments?

A LITTLE GOES A LONG WAY

Highly Concentrated Tinting

COLOR YOUR EPOXY

Unlimited Creativity - Custom Color Effects

EXCEPTIONAL SUSPENSION PROPERTIES

Color Stays Suspended in Epoxy

VERSATILE USE

Mix into EcoPoxy Casting or Coating Resins

Contains 60mL

Our color pigments are specially formulated to suspend in our coating and casting epoxies for even mixing and curing. This lets you achieve the "wow effect" you're looking for.

Ecopoxy Color Pigments are highly concentrated. With their exceptional tinting properties, a little bit goes a long way.

These pigments can be mixed for custom colors and unlimited creativity. Our pigments can be used for coatings, gel coats, casting, and more. Visit our website to see some amazing creations from our talented customers.
